

With all the changes in the ATF market, are you tired of worrying about which ATF's to inventory and select from the more than 25 different ATF's on the market?

Take away the guesswork with a truly universal 100% synthetic ATF from one of the most trusted names in the industry – Wynn's!

Wynn's 100% Synthetic Multi-Vehicle Automatic Transmission Fluid

The only fluid you need and to prove it, Wynn's backs this ATF with a 7 Year/210,000 limited warranty when used in recommended applications*.

- Fully synthetic formula.
- Maintains fluidity and stability at low temperatures.
- Excellent oxidative stability.
- Excellent resistance to shear viscosity breakdown.
- Exceptional high temperature performance.
- Provide exceptionally smooth shifting and freedom from shudder in even the most demanding conditions.

Recommended for use in vehicles specifying the following fluids and in the following vehicle applications, including all new Dexron® VI and Mercon® V and Mercon LV applications (see back side for complete and detailed recommendations):

- Mercon®, Mercon® V, Mercon® SP, Mercon® LV
- Mopar® ATF+3 (Type 7176), Mopar® ATF+4 (Type 9602)
- Dexron® VI and all earlier Dexron® ATF's including Dexron® II and Dexron® III
- Allison C-4 (TES 228) and TES-295 Fluids
- Asian and European automatic transmissions including, but not limited to:
 - Honda/Acura
 - Toyota/Lexus
 - Kia
 - BMW
 - VW/Audi
 - Nissan/Infinity
 - Mitsubishi
 - Hyundai
 - Mercedes-Benz
 - Volvo
- Not recommended for CVT's (continuously variable transmissions) or vehicles specifying Type F-ATF.
