WYNN'S® WYNNGUARD™ FULLY SYNTHETIC MOTOR OIL

A Premium Synthetic Passenger Car Motor Oil for Today's Vehicles

Anyone who has paid attention to the direction of automotive technology knows that today's cars and trucks are considerably more sophisticated and powerful than vehicles produced just ten years ago. With this increase in net output, greater stress is placed on engine components – and also the oil that lubricates them. Despite that fact, engine oil capacity has not increased in modern engines. Further complicating matters, many automotive manufacturers are recommending longer drain intervals. That translates to more miles (and months) between oil changes.

In the past, many vehicle owners dutifully changed their oil every 3,000 miles. In many cases the engine was relatively large and under-stressed with a big sump. Today, more than ever, it pays to put the best quality oil in your vehicle. You need assurance that your engine will be protected from the first mile to the last. Wynn's new *WynnGuard™ Fully Synthetic Motor Oil* can provide that assurance.

Wynn's has been in the business of providing unsurpassed vehicle protection since 1939. Wynn's now brings that history, knowledge and expertise to passenger car motor oil (PCMO). With three viscosity grades available ... 5W-20, 5W-30 and 10W-30 ... there's a *WynnGuard* just right for your vehicle. All viscosities provide excellent protection, have outstanding low-temperature fluidity and resist oxidation. Anti-oxidants combined with detergents and dispersants fight the battle against sludge and varnish.

All *WynnGuard* oils are blended with pure synthetic base oil stocks and employ state-of-the-art additive technology to insure optimal performance. In addition, all *WynnGuard* formulations are API certified and meet the most recent API and ILSAC specifications SM/GF-4.

WYNNGUARD IS AVAILABLE IS AVAILABLE IN THE FOLLOWING VISCOSITY GRADES AND PACKAGING SIZES:

GRADE	QUART	5-QUART	DRUM
10W-30	A8401	A8407	A8402
5W-20	A8501	A8507	A8502
5W-30	A8601	A8607	A8602
